

Christmas Message from ATH2025 (2025/12/25 9pm)

I, on behalf of myself and the team, would like to thank you all for your enthusiastic participation in ATH2025; and wish you a very merry Christmas.

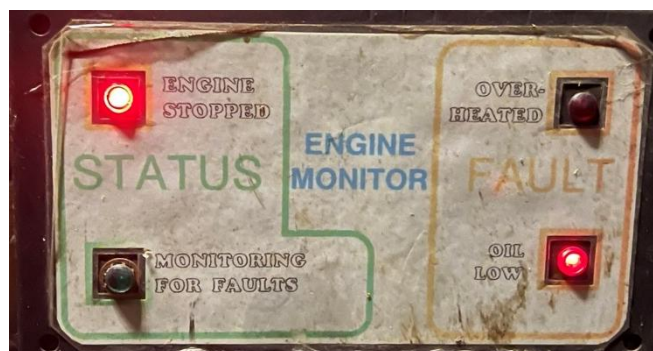

Christmas for me is on the canal boat above, as seen at dawn the morning. You will note that we are in the Midlands, we passed the bird cemetery yesterday and are heading for some tuneful locks.

My problem now is how, at the end of this one-way trip, do I get back to my car which I abandoned at the side of a road a few days ago. Do I take the train, or will the bus replacements be too tedious? Could I cycle, if I did where would I eat and would I find a WC?

Thinking about it the answers to these questions are not going to get me to where I want to be.

I hope you have had a happy Christmas and that your boat engine did not break down.

Dave

PS I meant to include some trinity wording but I have forgotten what I intended to say, time for some buck's fizz!
